

Access the World Wide Web of AI

The World Wide Web of artificial intelligence is being built on Bittensor. Yuma provides professionally managed access to the network's most compelling investment opportunities.

THE BITTENSOR ECOSYSTEM

THREE TERMS TO KNOW

TAO Bittensor's native token and the base currency used across the network

SUBNET (SN) An independent incentive market where contributors produce a specific intelligence output

SUBNET TOKEN A protocol-native asset representing exposure to an individual subnet

WHY INVESTORS LOOK AT THE CATEGORY

01 Early access to AI innovation
Exposure to emerging AI networks while the ecosystem remains in its early stages of development, creating the potential for asymmetric return opportunities

02 Scarce digital asset
TAO has a fixed maximum supply of 21 million tokens, was fairly launched with no insider allocations, and serves as the reserve asset of the Bittensor ecosystem

03 Broad AI exposure
Diversified exposure across AI infrastructure, models, data, finance and prediction markets

YUMA ASSET MANAGEMENT

Yuma combines investment management with direct participation in the Bittensor ecosystem. We translate a technically complex market into allocator-ready strategies through execution, staking, monitoring, risk management and reporting.

One Network. Many Markets. Infinite Intelligence.

Professionally managed access to the Bittensor ecosystem through systematic, rules-based investment strategies

IMPORTANT INFORMATION

For informational purposes only. This material does not constitute an offer to sell or a solicitation of an offer to purchase any security, token or other financial instrument. Any offer will be made only through definitive governing documents and only to eligible investors. Investments in digital assets and Bittensor subnet tokens involve substantial risk, including volatility, illiquidity, technology and cybersecurity risks, regulatory uncertainty and possible loss of principal. Tokens related to Bittensor subnets do not represent ownership in a legal entity and may lack traditional investor protections and disclosures. Past performance is not indicative of future results. Prospective investors should review the governing documents and consult their own legal, tax, accounting and financial advisers. Yuma Investment Management, LLC is not registered as an investment adviser under the Investment Advisers Act of 1940, under any state securities laws, or under the laws of any foreign jurisdiction.

Yuma Total Market Fund

Similar to a traditional 60/40 portfolio construction, the Fund combines a core allocation to TAO with diversified exposure to the broader subnet ecosystem.

INVESTMENT OBJECTIVE

The Fund is designed to capture growth across the entire Bittensor ecosystem through a single investment solution. The Fund combines exposure to TAO, the network's core asset, with a diversified, market-cap weighted basket of subnet tokens.

PORTFOLIO ARCHITECTURE*

*Note: Illustrative allocation as of June 30, 2026. Actual portfolio allocations will vary over time.

**Weights shown as a percentage of the subnet token allocation.

INSTITUTIONAL INFRASTRUCTURE

Fund administrator	NAV Fund Services	Independent auditor	CBIZ

PERFORMANCE SNAPSHOT – HYPOTHETICAL/BACK-TESTED⁽¹⁾

Net of fees

		Q2 2026	YTD (Q2)	ITD ⁽²⁾
Total Market Fund ⁽¹⁾	TAO	(1.2%)	2.8%	4.4%
	USD	(32.5%)	(2.3%)	(29.8%)
Staked TAO	TAO	1.8%	3.3%	5.1%
	USD	(32.8%)	(5.2%)	(31.8%)
YCX ⁽³⁾	TAO	(12.1%)	0.8%	(1.3%)
	USD	(42.0%)	(7.5%)	(35.9%)

(1) Performance shown for September 4, 2025 – June 23, 2026 is hypothetical and back-tested, not actual trading results. It reflects retroactive application of the Fund's systematic strategy rules, which were developed with the benefit of hindsight and knowledge of subsequent market events, net of the Fund's management fee, estimated transaction costs, and staking yield assumptions. Back-tested results have inherent limitations, including the risk that strategy parameters were selected based on their historical performance. No representation is made that any investor will achieve similar results; actual results may differ materially. The Fund launched June 25, 2026; performance shown before that date is hypothetical, and performance after reflects actual results.

(2) ITD (Inception-to-date): September 4, 2025 through June 30, 2026.

(3) YCX – the Yuma Composite Index: a price-based, market-capitalization weighted performance benchmark designed to track the full universe of Bittensor subnets. Built using weightings that inform allocations in Yuma Asset Management's subnet composite funds. YCX provides a single, real-time view of aggregate subnet market price performance by reflecting both token prices and circulating supply.
